

How to use the Browse Shifts feature

The Browse shifts feature allows you to search for shifts available near you. Here you can simply search and request shifts, notifying your consultant to book you into the placement.

1. Visit the Browse Shifts feature on the homepage.

2. The page will show all shifts that match the preferences you gave us using the Preference feature. To change the search parameters click the filter button in the top left of the page. Here you can tell the App to disregard your preferences so you can browse any and all shifts.

3. Once you find a shift you like, click on the shift and simply click:

4. Your consultant will now be notified and will book you into the shift and send you a booking confirmation.
